2. [REDACTED] Security, called to say that Mr. Kimball Johnson, Civil Service Commission, had been in touch with Security with regard to an inquiry from Senator John A. Carroll (D., Colo.) concerning a Commo ad which appeared in a Colorado newspaper. Apparently, a local attorney acting for a possible applicant has been in touch with Senator Carroll concerning the ad. Since the young man is interested in obtaining a waiver of the requirements described in the ad, Johnson asked if we would be in touch with Senator Carroll's office on this. I agreed to do this.

3. [REDACTED] Checked again with William Darden, Senate Armed Services Committee staff, concerning possible dates for our briefing of the Committee next week. Darden said he talked with the Chairman on Monday. The Chairman indicated he was not in a position at that time to set a date for the briefing since he was very much involved with the negotiations between the House and Senate Appropriations Committees. However, Darden said since this problem has been solved for the moment, he expects the Chairman to focus on this today or tomorrow. Darden will let us know as soon as he has some word.

25X1 4. [] CA Staff, called to say he had received a report from the State Department concerning State's contact with Representative John J. Rooney regarding Radio Liberty (see Journal of 17 July). Richardson was informed that when Rooney was given an open brochure on Radio Liberty he asked two questions. One was whether State Department funds were involved and the other was what the State Department thought of Radio Liberty. Rooney was advised State Department funds were not involved and that the Department feels Radio Liberty was serving a very useful purpose. State will keep us informed in the event Rooney shows any further interest in this.

25X1 5. [] Talked further with Jack Leahy, State Department, concerning Representative Edna Kelly's request for information on Soviet oil penetration in Europe and information on [] After checking on this, Leahy advised me that State has briefed Mrs. Kelly in depth on this subject and that Assistant Secretary Dutton and Assistant Secretary McGhee have personally talked with her about it. Mr. Leahy suggested that since we would like not to become involved with Mrs. Kelly on this, we advise her that all CIA information on this matter has been made available to the State Department which, we understand, has in turn been made available to her and that we would have no further information to give her other than that already provided. We will consider approaching Mr. Czarnecki, House Foreign Affairs Committee staff, who approached us on Mrs. Kelly's behalf on this basis. 25X1

25X1 6. [] After numerous conversations with Mr. Gillead, DOD, and a talk with Mr. Frank Bartimo, Assistant General Counsel, Man Power, regarding the request from the Joint Committee on Atomic Energy for the portion of SNIE 11-14-61 relating to nuclear testing, the matter was taken up with General Carter who agreed with Bartimo's request that he be permitted to show to the Committee or the Committee staff an extract of sections 19 through 23 of the estimate. During the course of the day, a number of factors became known including the fact that the President sent to Senator Clinton Anderson on 9 July a letter saying that Mr. McNaughton, General Counsel of DOD, would provide the Committee with such information as was appropriate concerning Defense's investigation of the disclosures in the
